

Monday Favorite Gadget - Progressive Onion Chopper by Lynn's Recipes

Today I am sharing my Progressive Onion Chopper. This is very convenient when you don't like to chop onions, have a lot of onions to chop, or are in a hurry to chop onions for a recipe. Easy clean-up. This can go in the dishwasher and has a cleaning tool to help get all of the onion out of the blades.

This holds 2 cups of chopped onion and there are measuring marks on the side to see how much you have chopped, if you need to measure a certain amount for a recipe.

This can be found at Bed, Bath and Beyond, Amazon, and many other kitchen supply stores.

I purchased this with my own money. I haven't been paid for a review and all opinions are my own.
