

Monday Favorite Gadget - Silicone Spoons by Lynn's Recipes

I am sharing my Silicone Spoons today for my Monday Favorite Gadget.

These are great to use on your non-stick cookware and can be washed in the dishwasher for easy clean-up. They are also great to stir baking ingredients together and can be used in place of a traditional spatula, if needed. These spoons are heat resistant up to 480°F, non-staining and odor resistant, and they won't warp or melt. This is something I use almost every day in my daily cooking.
